## Full Stack Web Developer

Full Stack Web Developer with over 2 years of experience in designing, developing, and implementing web applications. Proficient in both front-end and back-end technologies, with a strong command of languages such as HTML, CSS, JavaScript, and various frameworks such as React, Node.js, and Express. Proven track record of delivering high-quality, scalable solutions that meet client needs and exceed expectations. Excellent problem-solving abilities, strong attention to detail, and a passion for staying up-to-date with the latest industry trends and technologies. Looking to leverage my expertise to drive innovation and success in a dynamic development environment.

## Professional Experience

### Full Stack Web Developer

Unified Mentor,  
Remote | July 2025 - October 2025

- Designed and implemented responsive front-end user interfaces using HTML, CSS, and JavaScript frameworks such as React .
- Developed scalable back-end solutions and APIs using Node.js and Express, ensuring high performance and reliability of web applications.
- Integrated third-party services and APIs to enhance functionality and user experience, such as payment gateways and social media platforms.
- Collaborated with cross-functional teams to gather requirements, provide technical support, and deploy web applications to production environments.

## Education

April 2022 - July 2024

### Intermediate in Science

Kendriya Vidyalaya, Rayagda

- Graduated from Kendriya Vidyalaya, With Computer Science

August 2024 - July 2028

### B.Tech in Computer Science and Engineering

K L University, Guntur

- Actively involved in extracurricular activities related to computer science and engineering, such as coding competitions, hackathons, and industry networking events. Held leadership roles in student organizations focused on technology, fostering a strong community of like-minded individuals and facilitating peer learning opportunities outside the traditional classroom environment.

## Destin Ai

Ai Travel Planner |

[destinai-rahul.vercel.app/](https://destinai-rahul.vercel.app/)

**Destin-Ai** is an intelligent web application designed to simplify and enhance the travel planning experience 🌐. The app leverages AI-powered recommendations, custom itineraries, and real-time notifications to help users plan their perfect trips. Whether you're a solo traveler, a couple, or a family, this tool will make your trip planning process seamless, organized, and fun

## Real-Estate-Website

Website From Real-Estate Management |

[github.com/RahulDev-01/Real-Estate-...](https://github.com/RahulDev-01/Real-Estate-...)

This is a comprehensive web application designed to facilitate the **buying, selling,** and **renting** of properties. The platform offers a **user-friendly interface** for both **property seekers** and **real estate agents**.

## Expense Tracker

Track your Expenses |

[github.com/RahulDev-01/money-tracke...](https://github.com/RahulDev-01/money-tracke...)

A simple **Expense Tracker** web application that allows users to manage their expenses by selecting a category, entering an amount, and picking a date. Expenses are displayed in a table, and the total spent is automatically updated. You can also delete individual entries.

## Gemini Ai App

Ai Chat Bot |

[github.com/RahulDev-01/Gemini-clone](https://github.com/RahulDev-01/Gemini-clone)

Gemini is a simple React-based application that interacts with users by generating responses based on user prompts. It includes features such as user-friendly prompts, result display, and the ability to submit prompts.
